

The Heel 'n' Toe

from Logjam Music

Thank you for purchasing the *Heel 'n' Toe* grooveboard.

To attach *The MK 2 Logarhythm* to your *Heel 'n' Toe* first feel for the points on the base of *The Logarhythm* where it has been drilled to accept the dowels provided with your *Heel 'n' Toe*. (If in doubt check out the picture on our website). Remove the non-slip mat with a sharp knife at these places and fit the dowels into *The Logarhythm*. You're ready then to fit your Log to *The Heel 'n' Toe* or to "*The Wedge*" if you're using that in conjunction with your grooveboard.

Use a fresh damp cloth to clean the gauze on the base of the unit. When dirty this will be less effective in providing a non-slip surface.

The Heel 'n' Toe is finished in Linseed oil so you can easily apply more of the same to the area where your heel rests.

As a matter of course, your *Heel 'n' Toe* is guaranteed for 1 year from date of purchase but please register at the URL below, to see our other products, to get your free extended 2 year warranty and to become a part of the *Logging Community*.
